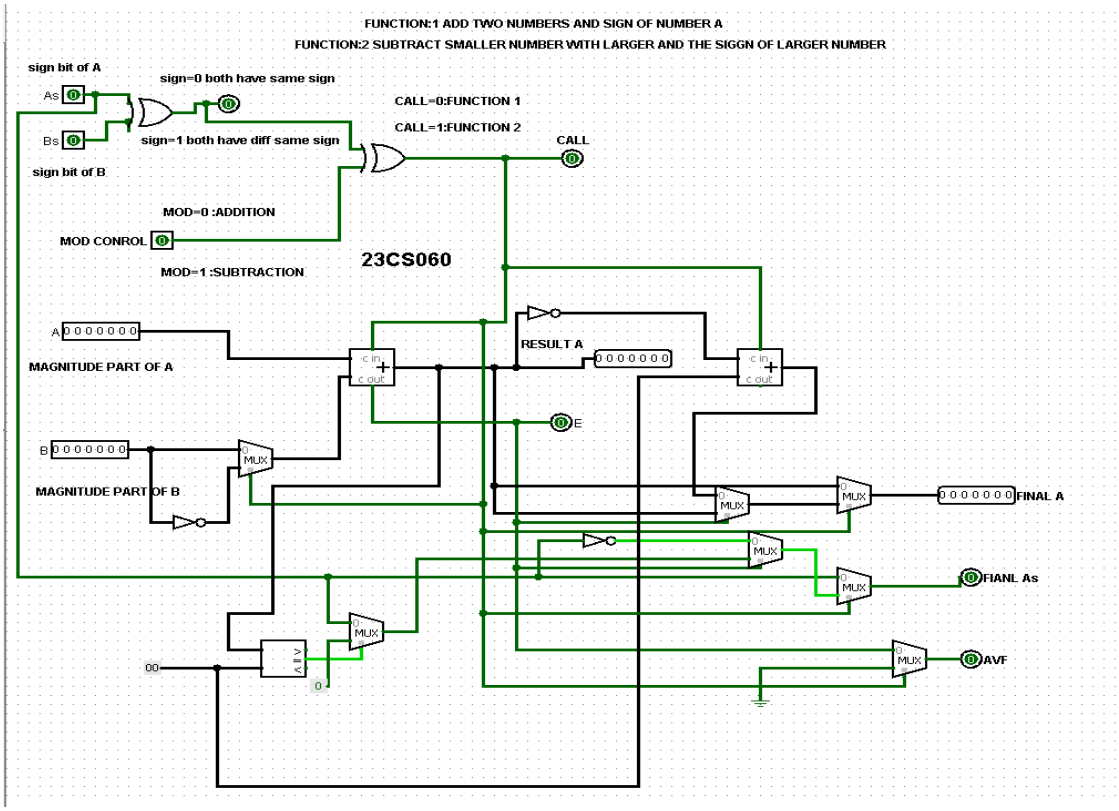
Date:

EXPERIMENT NO. 2

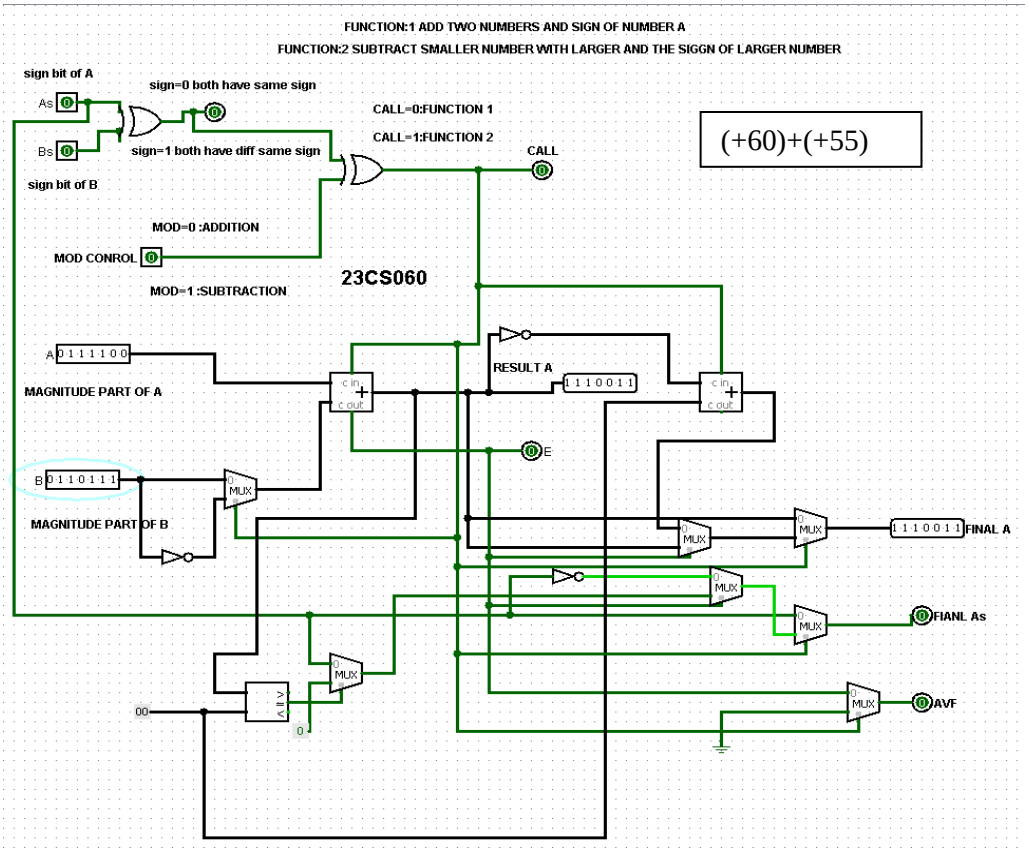
AIM: Implement a circuit in Logisim which perform Addition and Subtraction of sign number.

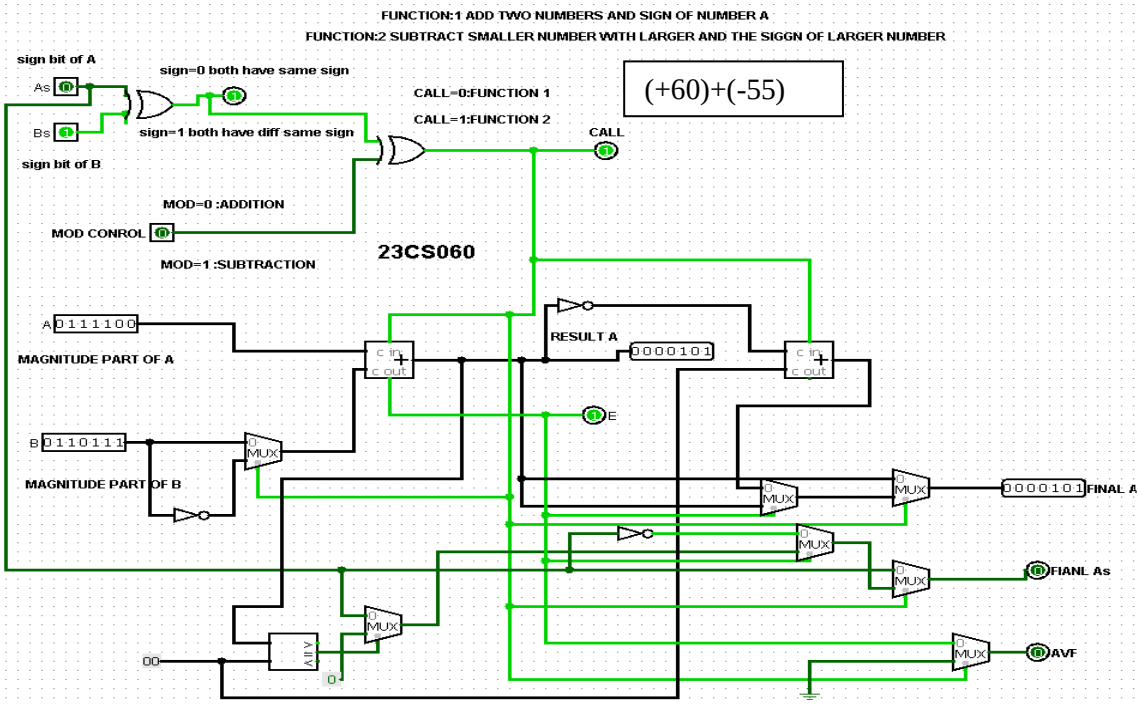
ALGORITHM:

CIRCUITS:



OUTPUTS





FUNCTION:1 ADD TWO NUMBERS AND SIGN OF NUMBER A
FUNCTION:2 SUBTRACT SMALLER NUMBER WITH LARGER AND THE SIGGN OF LARGER NUMBER
sign bit of A
sign=0 both have same sign
As
Bs
sign=1 both have diff same sign
sign bit of B
CALL=0:FUNCTION 1
CALL=1:FUNCTION 2
CALL
(+60)+(-55)
MOD=0 :ADDITION
MOD CONROL
MOD=1 :SUBTRACTION
23CS060
A 0111100
MAGNITUDE PART OF A
RESULT A
